### PARTNERSHIPS WITH BUSINESS

The District is well aware of the role that education will play in increasing the nation's productivity and future well-being. It also recognizes that schools of the District need to operate as an integral part of the economic community if students are to receive the type of education and training they will need to function effectively in the twenty-first century.

The Board will seek to establish not only partnerships between the District and individual companies but also, if possible, consortia involving several companies and/or school districts. The purpose will be to seek opportunities for students and staff to share in new strategies and technologies being created in the business world.
