## BOARD OF EDUCATION COLUMBUS SCHOOL DISTRICT

RELATIONS  
9600/PAGE 1 OF 1

### STAFF/STUDENT PARTICIPATION IN COMMUNITY EVENTS

The District recognizes that the local community offers many programs and events that provide learning experiences which are not available in the schools and which can help students become more literate, cultured, and productive human beings.

The Board seeks to maintain continuing communication with those groups and organizations that enrich the life of the community and authorizes the Superintendent to cooperate with their leaders. Further, the District encourages members of the staff to make their many talents and specialized knowledge available, as time permits, to enhance the quality of such community activities.
