UNITED 127

MATERIAL SAFETY DATA SHEET

1. PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: UNITED 127 SEASONAL EQUIPMENT WAX
USE/DESCRIPTION: Aerosol Snow Plow Wax and Lawnmower Deck Treatment
REVISION DATE: November 5, 2008

2. COMPOSITION/INFORMATION ON INGREDIENTS

3. HAZARDS IDENTIFICATION

Eyes: May cause irritation accompanied by stinging, tearing, and redness.
Skin: Frequent or prolonged contact may cause irritation. Passage of this material into the body through the skin is possible. May aggravate existing skin conditions.
Inhalation: Inhalation of vapor or mist can cause irritation of nasal and respiratory passages. Prolonged or repeated exposure may cause irritation to the upper respiratory tract, dizziness, nausea, and other central nervous system effects. Repeated overexposure may damage peripheral nerve tissue, cause mild, reversible liver and kidney effects, nasal damage, nervous system damage, testis damage, lung damage, and visual impairment.
Ingestion: Can cause gastrointestinal irritation, nausea, vomiting and diarrhea. Aspiration of material into the lungs can cause lung inflammation and other lung injury.

4. FIRST AID MEASURES

Eyes: Flush with large amounts of cool running water for at least 15 minutes while holding upper and lower lids open. If irritation persists seek medical attention.
Skin: Wash with soap and water. If irritation persists seek medical attention.
Inhalation: Remove to fresh air. Seek medical attention immediately. If breathing stops give artificial respiration.
Ingestion: DO NOT induce vomiting. Seek medical attention immediately.

5. FIRE FIGHTING MEASURES

Flash Point (TCC): -10°F/-23.3°C
Explosive Limits: Lower (LEL): ND Upper (UEL): ND
Flame Projection (Aerosol): Extremely flammable per 16 CFR 1500.3 and 1500.45.
Hazardous Products of Combustion: When strongly heated, as in a fire, this product may produce oxides of carbon.
Fire and Explosion Hazards: Do not expose aerosols to temperatures above 120°F/49°C or the container may rupture.
Extinguishing Media: Foam; CO2; Dry media
Fire Fighting Instructions: Wear self-contained breathing apparatus w/full protective clothing. Containers should be cooled with water to prevent vapor pressure build up.
6. ACCIDENTAL RELEASE MEASURES

Small Spills: Remove all sources of ignition and ventilate area. Soak up with an inert absorbent and place in designated disposal container. Wash area thoroughly.

Large Spills: Remove sources of ignition and ventilate area. Soak up with an inert absorbent and place in designated disposal container. Wash area thoroughly.

7. HANDLING AND STORAGE
Keep away from heat, sparks, and flame. Use with adequate ventilation. For Industrial and Institutional use only. Do not puncture or incinerate containers. Do not store at temperatures above 120°F/49°C. NFPA 30B Storage Level 3.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Eyes: Safety glasses or chemical proof goggles recommended.

Skin: Chemical resistant gloves are recommended.

Respiratory: None needed for proper use in accordance with label directions. If ventilation is not adequate to reduce vapors below TLV levels, use a NIOSH/MSHA approved air-purifying respirator equipped with an organic vapor cartridge.

Engineering Controls: Provide adequate ventilation to keep vapor concentration below TLV and prevent accumulation of excessive vapors to minimize flammable conditions.

9. PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point: 160°F/72°C  Specific Gravity: 0.701 conc.(H2O=1)  Vapor Pressure: 50 psig  Melting Point: ND

Vapor Density: >1 (air=1)  Evaporation Rate: ND  Solubility in Water: Negligible  pH: NA

Appearance and Odor: Aerosol; clear yellow liquid spray with lemon scent

10. STABILITY AND REACTIVITY

Hazardous Polymerization: Will not occur.

Hazardous Decomposition: When strongly heated, as in a fire, this product may produce carbon dioxide and carbon monoxides.

Chemical Stability: Stable

Incompatibility: Avoid contact with strong oxidizing agents.

11. TOXICOLOGICAL INFORMATION

Carcinogenicity (NTP/IARC/OSHA): None

California Proposition 65: Does this product contain chemical(s) known to the State of California to cause cancer and/or to cause birth defects or other reproductive harm? No

12. ECOLOGICAL INFORMATION

ND

13. DISPOSAL CONSIDERATIONS
Consult your local, state, provincial and federal regulations for proper disposal guidelines. Do not puncture or incinerate containers. Disposal regulations may be different for each state and/or locality. Aerosol cans when vented to atmospheric pressure through normal use pose no disposal hazard.

14. TRANSPORT INFORMATION

DOT: Available upon request

TDG: Available upon request

UN: Available upon request

15. REGULATORY INFORMATION

VOC(Volatile Organic Compounds): 96.38% by wt.

TSCA (Toxic Substances Control Act): ND

SARA Title III Section 302 EHS: ND

SARA Title III Section 311/312: ND

SARA Title III Section 313 Toxic Chemicals: Hexane C# 110-54-3

WHMIS Classification: This product has been classified in accordance with the hazard criteria of the CPR (Controlled Products Regulations/WHMIS) and the MSDS contains all the information required by the CPR.

16. OTHER INFORMATION

Read and follow all label directions and precautions before using this product. These products are intended for industrial and institutional use only. NOT FOR HOUSEHOLD USE OR RESALE. KEEP OUT OF REACH OF CHILDREN.
